

# Evan Crocker

Seattle, WA

[ecrce.com](http://ecrce.com)

## SUMMARY

---

*Infrastructure and security engineer with experience in regulated sectors, focused on maintaining reliable systems, managing risks, and supporting secure, audit-ready operations.*

## WORK EXPERIENCE

---

### UCB Biopharmaceuticals

Bainbridge Island, WA

Senior Infrastructure Engineer

2023 - present

- Maintained our lab's infrastructure and advised peer teams across the U.S., LATAM, and Canada to support secure, compliant scientific operations.
- Secured Linux systems supporting scientific instruments like crystallography and spectrometry.
- Contributed to patching, hardening, and hybrid migrations tied to incidents and lifecycle plans.
- Supported DR planning and tracked CVEs across environments.
- Worked with scientists and vendors to meet HIPAA and NIST requirements.

### MSP Recovery

Miami, FL

Information Security Analyst

2022 - 2023

- Supported HIPAA readiness by tuning IAM, encryption, and load balancing configurations in cloud environments
- Helped prep for audits, document controls, and organize findings across multiple business units
- Managed vulnerability scans and CVE remediation cycles using Qualys
- Documented DR processes and worked with legal and compliance leads to confirm audit alignment
- Advised internal teams on regulatory posture and contributed to risk remediation planning

### Insigneo Financial Services

Miami, FL

IT Specialist

2019 - 2020

- Automated provisioning and offboarding across hybrid AD, Azure AD, and M365
- Built out RBAC and conditional access policies supporting SOX/FINRA control requirements
- Partnered with compliance and IT to keep identity workflows efficient and traceable

### Mecklenburg County

Charlotte, NC

IT Support Specialist

2015 - 2018

- Provided day-to-day support for court staff and community outreach campaigns in a resource-constrained environment
- Maintained workstations, resolved connectivity issues, and assisted with basic content prep for local media
- Contributed to civic initiatives in both technical and field support roles

## PROJECTS & COMMUNITY

- Contributor, *NanoDroid / MinMicroG*: Helped optimize secure Android builds for privacy-minded users
- Contributor, *Headscale*: Assisted with open-source development and small-team VPN access control testing
- Volunteer, *Venezolanos en Kendall*: Provided IT support, laptop repairs, and digital literacy help for new arrivals

## EDUCATION

---

*Broward College – Associate of Arts (Completed coursework; graduation pending state civics requirement)*

## SKILLS AND CERTIFICATIONS

---

- **Compliance & Governance:** HIPAA, PCI, SOX, NIST 800-53, ISO 27001, SOC 2
- **Security Operations:** Vulnerability management, incident response, audit preparation, policy development
- **Cloud & Identity Platforms:** AWS (IAM, EC2, S3, ELB), Azure AD, M365
- **Infrastructure & Automation:** Linux (RHEL, Debian), Windows Server, VMware vSphere, Terraform, Ansible
- **Tooling & Scripting:** PowerShell, Python, REST APIs, Qualys, ServiceNow, Jira
- **Networking & Access Control:** Firewall rule tuning, network segmentation, VPN and virtualization best practices in regulated environments
- **Certifications:** CCNA, Security+
